

Datatrak's DispatchIT at the UK Commercial Vehicle Show

Datatrak's mobile job process and workflow solution, DispatchIT was amongst the main attractions on the MIX telematics stand at the 2008 Commercial Vehicle Show, held in mid April at the NEC in Birmingham, UK.

Datatrak Solutions Ltd and Omnibridge teamed up together displaying their wide range of vehicle telematics solutions during UK's largest commercial vehicle show which attracts over 25,000 visitors. Apart from showcasing its flag bearer solution, DispatchIT, Datatrak Solutions Ltd also presented its block buster fleet tracking solution, Datatrak On-Line which in the UK alone has over 10,000 subscriptions.

During the Commercial Vehicle Show, Omnibridge, a long standing strategic partner of Datatrak Solutions also unveiled and premiered their new corporate image and brand name, MIX telematics.

Roland Scerri, Datatrak's Solutions Director commented that the visitors of the Commercial Vehicle Show had the opportunity to try out both DispatchIT and Datatrak On-line, thus immediately identifying the benefits that each solution could give to their business.

Datatrak Solutions Ltd is a subsidiary of Datatrak Holdings plc.
