## Directors' Report pursuant to Listing Rule 5.75.2

For the six-months ended 31 December 2017

The Directors present their report in accordance with the requirements of MFSA Listing Rule 5.74. This report, which shall be read in conjunction with the Condensed Consolidated Interim Financial Statements for the six months ended 31 December 2017, including the Notes thereto, forms part of the Half-Yearly Report of Loqus Holdings p.l.c., drawn up in terms of the requirements of Listing Rules 5.74 to 5.75.

### Principal Activities

The Company holds investments in subsidiaries engaged in the provision of fleet management, back-office processing, and ICT solutions.

### Review of Performance

The Group is reporting an overall profit for the period of €90,300 following an 11% increase in revenue.

	<b>01.07.2017 to 31.12.2017</b>	01.07.2016 to 31.12.2016	% change
<b>Revenue</b>	<b>€1,898,274</b>	€1,716,382	11%
<b>Costs</b>	<b>€1,510,885</b>	€1,446,032	-4%
<b>EBITDA</b>	<b>€387,389</b>	€270,350	43%
<b>Profit for the period</b>	<b>€90,300</b>	€59,311	52%

The results for the period ended 31 December 2017 reflect the Group's commercial momentum, the disciplined management of costs and risks and the improvement in its underlying profitability. Revenues increased by 11% to €1,898,274 against €1,716,382 in the prior period. The profit for the year increased by 52% from €59,311 to €90,300. This resulted following an increase in revenue as well as an increase in capitalised labour costs. Cash generated from operations achieved over the past years has allowed the Group to finance its investment in R&D.

In this period Loqus continued and further intensified its extensive investment in IPR with the development of the next generation fleet management tools. One of the challenges as a public company is maintaining the balance between delivering good financial results in the short-term, and at the same time positioning the business for sustainable long-term growth. Innovation is at the heart of our business model and the Group's primary intention is to continue to ramp up product development velocity to ensure Loqus captures the opportunities. The Group is confident about the prospects for the fleet management products and remains positive that they will provide sizeable opportunities in the coming years.

As a member of the industry we are aware of the trend towards greater commercial amalgamation by other key players. In this environment, the Group has been able to confirm, through assessing offers, that the market value set for Fleet is considered to be fair and demonstrates a sustainable demand for our high quality, technologically advanced products.

### Way forward

The Group continues to seek to achieve sustainable profitability and stable growth as it maintains its focus on innovation and its commitment to global expansion. Over the next period Loqus will start to examine alternatives to bank financing to provide the Group with the funds required to sustain further growth.

### Segment information

For management purposes, the group is organised into business units based on their products and services as follows:

- Fleet management - Vehicle and Marine Tracking Systems and On the Move Logistics Solutions including tailor made solutions as well as off the shelf packages. This department previously also incorporated products and services which are now classified within Original Equipment Manufacturers in view of the incorporation of Loqus Fleet Limited.
- Original Equipment Manufacturers – This includes Fleet Management contracts which the group holds with resellers under their own name and branding.
- Back-office processing - variety of high level, off site services to support entities.

Corporate expenses are allocated based on the segmental revenues. However, the Group assets and liabilities are managed on a Group basis and are not allocated to operating segments.
